Public events at conferences
Peer-reviewed recommendations about looking after your respiratory health from IPCRG, national members and trusted partners
Patient engagement in projects via patient representative organisations eg GAAPP, and individuals
Desktop helpers and position papers
Teach the Teacher programmes eg Children with Asthma; Treating Tobacco Dependence
E-Quality "bottom up" programmes responding to open calls for innovative education pilots
E-learning eg Medscape partnership on difficult to manage asthma
Research capacity building eg Research Schools, peer review of protocols, abstracts and papers
Opportunities to present research for peer review, network and collaborate eg world conferences
Research prizes and small grants for pilots
Talent spotting and mentoring new researchers
SOCIETY: CITIZENS, PATIENTS AND POLICY-MAKERS
More awareness, activation & access to care
Improved diagnosis, treatment and care & less variation
Funding the right things to benefit all
IPCRG-CREATED VALUE
Better outcomes in more countries across more of the health system
MEMBER COUNTRIES, PRIMARY CARE CLINICIANS
More competence & confidence
Innovation & spread
More investment in primary care & respiratory care
FUNDERS (PUBLIC AND PRIVATE)
Meaningful and feasible proposals for education, research and leadership programmes eg Asthma Right Care, FRESH AIR, UNLOCK
Dissemination of research findings eg FRESH AIR, RESPIRE, Breathe Well, Global RECHARGE
High value opportunities at our conferences and meetings to build partnerships and to showcase the value of primary care and its multi-disciplinary workforce
