

npj Primary Care Respiratory Medicine translated articles - overview

Multiple languages to facilitate dissemination

Springer Nature publishes npj Primary Care Respiratory Medicine in partnership with IPCRG and with our UK group, Primary Care Respiratory Society UK, which co-owns the journal with Springer Nature. To increase the reach of the journal to practising clinicians and academics, we have commissioned translations of key articles into additional languages: [Brazilian Portuguese/Portuguese](#), [Chinese](#), [French](#), [Greek](#), [Italian](#) and [Spanish](#). These have been translated by verified agencies that work with Springer Nature.
